### About us

At Avantgarde, the basic philosophy of our studio is to create individual, aesthetically stunning solutions for our clients. In our studio, every project is an open ended enquiry, helping our clients to challenge their existing state and work towards an alternative, a desired one. We provide guidance, expertise and experience across all phases in the design process, whether indoor or outdoor. With a strong philosophy in every design we make, we make sure that the design fits the purpose. Being or living in a space with amazing details of work is always the key to cozy and fresh feelings.

In our designs, we bring characteristics of the natural world into your built spaces, such as water, greenary, and natural light, or elements like wood and stone. Encouraging the use of natural systems and processes in our designs allows for exposure to nature, and in turn, these design approaches improve health and wellbeing.

## Mission

Designing and bringing to life beautiful spaces

## Vision

To be creators of simple, beautiful spaces that promote the well-being of our clients.

## Sliders;

1. Interior design – aesthetically stunning solutions
2. Landscapes – Transform your outdoor living space
3. Construction – Building your dreams
4. Project management – Projects that work for you

## Interior Design

Avantgarde's passion is to design your interiors. It's also our passion to work with our clients. We feel that interior design is one of the most important investments you will ever make. Whether your needs are residential or commercial interior design, our commitment to your project will be unparalleled. We want to lead people towards designs that enhance feelings of closeness, and hopefully, happiness.

We have intentionally never developed a stylistic formula for our work, which is why our projects never quite look or feel the same. Each of our spaces is the result of our ability to listen, which has turned our designs and buildings into personal reflections of our clients' personalities and values, which we co-construct through research and workshop. We help our clients to visualise their imagination, connect all the pieces of the puzzle into an amazingly designed space.

## Construction

We provide overall planning, coordination and control of a project, so you don't have to worry about anything.

We offer commitment at all levels of building project, from preparing for construction to construction management services. For years, we have successfully met our client's demand for cost effective and responsive services.

## Landscaping

From landscaping conception and design, installations and maintenance, or site renewal and rehabilitation, Avantgarde's dedication to total client satisfaction is evident in the work that we do. We are proud to be performing these services;

- Design & planning
- Rock gardens
- Water features
- Portable gardens
- Plant identification

## Project Management

Avantgarde Construction Project Managers oversee various construction projects, from start to finish. We have both the technical skills required for the job and in leading and directing our team. Our projects vary from residential, commercial to industrial buildings. We guide in the thinking, designing, building, and ultimately finding the right way to communicate the process and results.

We oversee all aspects of the building process, working closely with engineers and architects to develop plans, establish timetables, and determine labour and material costs, gather permits and ensure all aspects of the project are up to code. As far as possible, we ensure the project is completed on budget and within scope.
